

RANCH HOUSE® DOORS

 | *Redefining the Entrance™*

Stable, Durable, and Sustainable
Built to withstand the toughest conditions

AVAILABLE COLLECTIONS
SPANISH, CAPE COD, CRAFTSMAN, AND CONTEMPORARY

Authorized Dealer:

www.RanchHouseDoors.com

Less maintenance due to extreme durability

Strong enough to withstand the most severe and challenging weather conditions

Resistant to swelling, shrinkage, and fungal decay

Guarantees black paint, eliminating the need to apply additional protective layers

5-Year Warranty from RHD along with a peace of mind (see Tricoya® for more warranty information)

Thickness Swelling

Decay Resistance

Apart from creating exceptional dimensional stability, the process enables Tricoya® to achieve class 1 durability, leading to resistance to biological decay which exceeds oak and tropical wood species including Burmese teak in extended in-ground graveyard trials in accordance with AWP E7 methods.

Tricoya® offers a solution for specifiers and consumers in environments of wet, high humidity or fully weather exposed applications to deliver superior performance in a versatile large panel form.

Critical to practical and successful application, there is no requirement in the Tricoya® panel warranty to coat end cuts or drill holes which are exposed to moisture and weathering in use.

TRICOYA® PANEL BENEFITS

DURABLE

Longer lasting, perfect for outdoor use or wet (interior and exterior) environments

DIMENSIONALLY STABLE

Swelling and shrinking dramatically reduced

DESIGN FREEDOM

All the design, machining and assembly flexibility of medium density fiberboard

IDEAL FOR COATING

Improved stability and durability enhances the service life of the coating. Damaged coating will not affect the panel warranty

FUNGAL RESISTANCE

Effective barrier to fungal decay

NO ADDED FORMALDEHYDE

Tricoya® complies with CARB 931.20 for Phase 2 and NAF requirements

LOWER MAINTENANCE COSTS

Extended periods between exterior coatings maintenance

SUSTAINABLY SOURCED

Sustainably sourced FSC® certified
